

# Forging Industry Women's Scholarship Program

## Eligibility Requirements:

- Women currently enrolled as full-time students seeking an associate's, baccalaureate or master's degree in engineering (mechanical, industrial, electrical, metallurgical, materials science), or business (marketing or manufacturing) or a comparable area of study at an accredited two- or four-year college or university
- Cumulative GPA of 2.75 or above
- A citizen of the United States, Canada or Mexico

**FIERF**  
FORGING FOUNDATION

The Forging Foundation awards scholarships to encourage the best and brightest women that demonstrate the ability to combine strategic and technical skills to become effective decision makers and leaders in manufacturing specifically in the metalworking and forging industries.

**Applications Available at:**  
[www.fierf.org/students](http://www.fierf.org/students)

**Deadline for Receipt:**  
April 14th

*\* Award levels vary, with higher awards offered at later stages in an eligible course of study.*
